

1-Why is the dynasty collected?

**The more the royal dynasty comes together,
the greater the chance of accumulating liquidity.**

**This is about a specific stock on the stock exchange or
cryptocurrencies.**

**Also, the gathering of soldiers increases the confidence
of the community in this dynasty**

.....

2-Who has the right to read the market or the fluctuation of the stock market and cryptocurrencies?

**The whole family is from the dynasty except the
soldiers**

**1-Free King. The duration of his analysis of the
cryptocurrency or stock on the stock exchange
is 4 weeks or less than this period**

**2-King. The duration of his analysis of the
cryptocurrency or stock on the stock exchange
is 3 weeks or less than this period**

**3-Queen. The period of analysis of the cryptocurrency
or stock on the stock exchange**

is 2 weeks or less than this period

4-Princes. The period of analysis of the cryptocurrency or stock on the stock exchange

is 1 week or less than this period

It is also necessary to offer support by means of liquidity card

.....

3- What is the use of soldiers in the ruling dynasty?

The benefit of soldiers is to invite society to rally around the ruling dynasty,

which increases the movement of liquidity in the stock market and cryptocurrencies

.....

4- What is the benefit that accrues to the whole dynasty?

The community's confidence in them and their economic outlook increases, which increases the high prices of their cards.

And, their soldiers,

which makes a lot of society want to join this dynasty

.....

5-How to identify the ruling dynasty?

There is a logo for the dynasty and a code that requires the whole dynasty

.....

6- How can they communicate with each other?

(The dynasty)

This is done by kings and princes through social media channels,

including reinforcing their soldiers to help do so.

And activate their movement within the economic markets

.....

7- How cards are traded for royal dynasties?

This is done through the desire of the community to join one of the dynasties according to their knowledge, which leads to the sale and purchase of cards

.....

8- What are the common interests in the royal dynasty?

**The dynasty receives support with each other and the support of the soldiers as well,
and the king or prince can distribute expenses to the soldiers if he reaches what he wants to motivate them.
and at the same time, it is easy for him to identify his soldiers through cards**

.....

9- What is the benefit that the king or prince gets?

The stronger the dynasty of the king or prince.

This increases the price of the card.

In the period when the king wants to step down from the king or the emirate,

only those who can lead the dynasty will replace him,

and at the same time the amount will be doubled in the purchase of the card

.....

10- Why Liquidity Cards?

Liquidity cards distributed to all breeds from the king to the prince.

They are also two types

1- Liquidity accumulation card

2- Liquidity Discharge Card

11- What is the purpose of putting cards on the trading market (MFI)?

If the king wishes to analyze a particular stock or cryptocurrency.

He must list the liquidity card for sale on one of the NFT token platforms.

And announce the place of sale. This is the king's bet, which indicates his credibility in front of the dynasty and society.

He must also take care of the selling price, either to earn the price of the liquidity card according to his desire.

or to prove the validity of his credibility and the trust of the soldiers and the community in him

.....

12- Is it possible to use the liquidity card without the King or the Prince?

This is not possible because he has lost responsibility about society
